F 0609	This allegation of physical abuse was not reported to NYSDOH within 2 hours.			
Level of Harm - Minimal harm or potential for actual harm	Multiple attempts were made to contact CNA #1, but all were unsuccessful.			
Residents Affected - Some	LPN #1 is no longer employed at the was disconnected.	ne facility. An attempt was made to con	tact LPN #1, but the phone number	
	During an interview on 01/31/2022 at 03:15 PM, the Director of Nursing (DON) stated that he/she was not familiar with the case related to Resident #24 since they were not the DON at the time of the incident.			
	Resident #367 was initially admitted with diagnoses which include Unspecified Dementia without behavioral disturbance and schizoaffective disorder.			
	The MDS dated [DATE] documented Resident #367 had a Brief Interview of Mental Status (BIMS) score of 6/15, indicating severely impaired cognition. The resident required extensive assistance with one-person physical assist for most areas of ADLs.			
	The Investigation Summary Report for Occurrence dated 10/28/2020 documented LPN #2 observed CNA #2 punching Resident #367 on the right arm. Resident #367 was trying to kick CNA #2 and CNA #2 pushed the resident's feet away towards the resident's face. LPN #2 immediately intervened. CNA #2 left the room, but on the way out threw a pillow that hit Resident #367 on the face. Resident #367 had slight redness to the right eye and a bruise noted on the top of the right hand. CNA #2 reported that LPN #2 asked them to assist Resident #367 and the resident was kicking and punching CNA #2. CNA #2 reported that the nurse entered the room and asked CNA #2 to be patient and nice. CNA #2 proceeded to leave the room and noticed that a pillow was on the floor. CNA #2 picked up the pillow and threw it on the bed. The Police were contacted. The investigation concluded that it was reasonable to conclude that there was an altercation between CNA #2 and Resident #367. CNA #2 agreed with most of what LPN #2 stated other than punching Resident #367. There was no reasonable cause to believe that LPN #2 would lie. CNA #2 was counseled and reeducated.			
	A Nursing Progress Note dated 10/28/2020 documented that at approximately 7:30PM the nurse stated that CNA #2 was abusing Resident #367. Resident #367 stated that CNA #2 threw a pillow at me. No injury was noted, just slight redness with yellow dry drainage to corner of Right eye. The resident denied any pain.			
	A Nursing Progress Note dated 10/29/2020 documented Status Post Incident, day 1: Resident #367 was observed with a bruise on right hand.			
	A review of the HERDS submission report revealed that the facility reported this to the NYSDOH on 10/29/2020 at 04:42 PM.			
	This allegation of Physical abuse w	as not reported to NYSDOH within 2 h	ours.

F 0657 Level of Harm - Minimal harm or potential for actual harm	(BIMS) score of 15, indicating intac Resident #203 had no guardian or	E], documented that Resident #203 had t cognition. The resident and family pa legally authorized representative. The le to understand others and be unders	rticipated in the assessment, and MDS further documented Resident
Residents Affected - Some	The Social Services Cognitive Loss 3.0 Care plan effective date 10/1/2020 documented the resident presents with a cognitive score of 15 on BIMS, daily decision making is independent and his ability to express ideas and wants and consider both verbal and non-verbal expression is understood. Care plan interventions were resident will participate in decision making process through next review and will verbalize needs to staff.		
	The Care Plan Meeting reports dated 1/19/2021, 3/30/21, 6/3/21 and 9/2/21 contained no documented evidence Resident #203 was invited or attended the CCP meeting held by the interdisciplinary team.		
	There was no documented evidence that Resident #203 attended or was invited to any quarterly care plan meetings in progress notes, assessments, or care plans meeting log from 09/28/20-3/2/22.		
	On 2/23/22 at 01:52 PM, Resident #203 was interviewed and stated they were not involved in care planning.		
	On 03/02/22 at 12:28 PM, the Director of Social Services (DSS) was interviewed. The DSS stated care planning is done for new admissions, annual, significant change, and quarterly. The DSS stated residents and their family/designated representatives are invited to join the team for new admission, annual and significant change care plan meetings, but they are not invited to the quarterly meetings. Social Services oversees the care plan meeting invites. DSS stated they have a letter and keep track that way and make phone calls.

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)			
F 0688	A review of the CNA Nursing Instru	uction did not contain information on a b	pilateral wrist brace.	
Level of Harm - Minimal harm or potential for actual harm	During an interview on 03/02/2022 at 11:30 AM, Resident # 106 stated that he had not been wearing the wrist brace at bedtime.			
Residents Affected - Few	During an interview on 03/02/2022 at 12:50 PM, the Certified Nursing Assistant # 5 (CNA# 5) stated that Resident # 106 is usually in bed sleeping in the morning. CNA # 5 has not seen Resident # 106 wearing the bilateral wrist braces. There was one wrist brace at the bedside. The supervisor was informed.			
	During an interview on 03/03/2022 at 12:29 PM, the Registered Nurse Supervisor (RNS) stated Resident #106 has as order for a bilateral wrist brace while in bed. The order for the brace is supposed to be entered in the CNA Accountability for the CNAs to see and document. The RNS stated the order is not in the CNA Accountability. The RNS was supposed to enter the order in the CNA Accountability and ensure that the CNAs are documenting it.			
	During an interview on 03/02/22 at 11:49 AM, the Director of Rehab stated Resident # 106 should have a bilateral wrist brace at bedtime and be removed when out of bed in a wheelchair so they can use the hands.			
	Resident # 200 was admitted with diagnoses which include Atrial Fibrillation, Cerebral Infarction, and Diabetes Mellitus.			
	The Minimum Data Set (MDS) assessment dated [DATE] documented Resident #200 had intact cognition. The resident required extensive assistance in all activities of daily living. Section O had no indication of Range of Motion (ROM) or splints devices.			
	On 02/23/2022 at 2:08 PM, 02/24/2022 at 9:38 AM, and 02/25/2022 at 10:30 AM, Resident #200 was observed was out of bed in a wheelchair. The left arm was flaccid; no splint was noted.			
	A Physician Order dated 02/2022 of	documented a left resting hand splint to	be worn while out of bed.	
	,	Record and Treatment Administration a left resting hand splint was applied.	Record dated 02/01-02/28/2022	
	A review of the CNA Nursing Instru	uction has no documented evidence for	a left arm splint.	
	There was no documented evidence	ce that a care plan was in place for the	left-hand splint.	
	_	at 11:34 AM, the Certified Nursing Ass ft arm but did not see it in the room.	istant (CNA #11) stated that	
	left hemiplegia, that is why the resi applied to the left arm when out of	at 11:38 AM, the Director of Rehab (Dident has the order for the splint to previous. Resident # 200 was not wearing tom. The DR has applied the splint on F	ent contractures. The splint is he split. The split was in a chair

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
F 0688 Level of Harm - Minimal harm or potential for actual harm	During an interview on 03/03/22 at 12:39 PM, the Registered Nurse Supervisor #1 (RNS #1) stated that Resident #200 has a splint for the left arm, and it was supposed to be in the CNA Accountability so that the CNAs will see that the resident needs a splint. The RN Supervisor is responsible for updating the CNA Accountability, but it was not done.		
Residents Affected - Few	During an interview on 03/03/2022 at 3:44 PM, the Director of Nursing (DON) said that the RN Supervisor is responsible for entering the splint in the care plan and the CNA Nursing Instruction. The unit nurse was supposed to enter it in the Treatment Administration Records. The nurses and the RN Supervisor ensure that the splint is applied as ordered.
