(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES  (Each deficiency must be preceded by full regulatory or LSC identifying information)				
F 0609  Level of Harm - Minimal harm or potential for actual harm	An admission MDS dated [DATE] documented Resident #121 had intact cognition and no behaviors. Resident #121 required extensive assistance of 2 for bed mobility, transfer, and total assistance of 1 for locomotion on unit.				
Residents Affected - Few	An Accident/Incident report dated 3/5/2022 documented at 6 PM, Resident #42 and Resident #121 had a verbal altercation that led to a sudden physical altercation. Resident #42 was noted with a superficial pinpoint sized cut with scant amount of bleeding. Resident #42 refused hospitalization. Resident #121 did not sustain any injuries. The undated investigation summary documented there was cause to believe alleged abuse, mistreatment or neglect occurred.				
	The NYSDOH ACTS system for int 3/10/2022 at 09:17 AM.	ake number NY00292383 documented	the facility reported the incident on		
	This allegation of resident-to-reside	ent abuse was not reported within 2 hou	ırs.		
	2) Resident #76, the Aggressor, ha	d diagnoses of Dementia and Schizopl	nrenia.		
	An admission MDS dated [DATE] documented Resident #76 had severely impaired cognition. Resident #76 exhibited physical and verbal behaviors toward others, other behaviors not directed towards others, rejection of care, and wandering behaviors for 1 to 3 days of the assessment period. Resident #76 required supervision with set-up for bed mobility and transfer.				
	Resident #28, the victim, had diagnoses of Alzheimer's disease, Psychotic disorder with delusions, and undifferentiated Schizophrenia.				
	A Quarterly MDS dated [DATE] documented Resident #28 had severely impaired cognition and no behaviors. Resident #28 required extensive assist of 1 for bed mobility, limited assist of 1 for transfer, and supervision set-up assistance to walk in room/corridor. Resident #28 had a Wander/elopement alarm.				
	An Accident/Incident report dated 3 punched/pushed Resident #28 to the	3/22/2022 documented Resident #76 was ne floor.	as the aggressor and		
	A nursing note from Resident #76's medical record written on 3/22/2022 @ 3:02 pm resident #76 attacked resident #28 and pushed them to the floor in the day room. Supervisor made aware. Staff intervened to de-escalate the situation. Resident was assisted to their room. A Nursing note dated 3/22/22 documented Resident #76 was very aggressive and physically trying to abuse other resident and Staff. Resident trying attack staff and residents for no reason and unprovoked. They were transferred to ER for further evaluation				
	A Nursing Note written on 3/23/2022 at 1:04 PM documented on 3/22/22 at approximately 3pm the writer was notified that Resident #28 was pushed by another resident. Resident #28 was immediately separated from the aggressor, the supervisor was called, and Resident #28 was assisted back to the chair. No signs bruising noted. The RN supervisor and physician were made aware.

F 0610	Respond appropriately to all allege	d violations.		
Level of Harm - Minimal harm or	**NOTE- TERMS IN BRACKETS H	IAVE BEEN EDITED TO PROTECT CO	ONFIDENTIALITY** 45351	
potential for actual harm  Residents Affected - Few	Based on record review and interviews during the extended Recertification and Complaint survey (NY00293005), the facility did not ensure that an investigation was completed for a resident with an injury of unknown origin for 1 (Resident #26) of 12 residents reviewed for Accident. Specifically, an investigation was not initiated when Resident #26 was found with a bruised nose of unknown origin to rule out abuse, neglect, or mistreatment.			
	The finding is:			
	The Policy and Procedure (P&P) titled Accident/Incident revised 5/20/17 documented that resident incident/accidents occurring on premises, along with injuries to residents of unknown origin, must be investigated and reported in a timely fashion.			
	Resident #26 was admitted to the facility on [DATE] for emergency placement and diagnosis included schizophrenia, developmental delay, and autism.			
	The MDS documented that residen	MDS) 2/7/22 documented Resident #26 trequired the extensive assist of one pene. The resident required the extensive	erson for bed mobility, transfer,	
	On 7/25/22 at 9:03 AM, the Complainant was interviewed via phone. The Complainant stated that Resident #26 was observed with bruised nose, and nursing staff was not able to explain the bruise.			
	The Comprehensive Care Plan (CCP) titled Peer Abuse Prevention created 11/1/21, revised 7/18/22. Interventions included to allow resident to vent feelings, anticipate needs, family involvement, hospitalizatic as needed, medication per MD order, protect from over stimulation, psychiatry consult, redirect/refocus attention by offering alternative activities, and use stop sign at doorway.			
		ujury created 4/21/22, revised 6/24/22. I onment, keep bed in lowest position, kell and removes only at bedtime.		
	The CCP titled Victimize/Victimization created 5/11/22, revised 7/25/22. Interventions included to use approach, talk in a soothing manner, identify triggers for behavior, keep separate from other residents possibly disturbed by the behaviors exhibited whenever possible, encourage family/friends involvement observe for peer's wandering behaviors and redirect, provide calming activities, redirect as needed, an utilize stop sign on doorway as needed.			
	The Nursing Note dated 11/12/21 documented Resident #26 was noted with a dark area on nose.  Management was made aware, and the concern was documented in MD/NP communication book for follow up.			
	The Physician Note dated 11/15/21 documented Resident #26 was seen and noted with yellow di about 1 cm of diameter on resident's nasal bridge. X rays of nasal bones and head were ordered.

F 0656  Level of Harm - Minimal harm or potential for actual harm	Social Worker behavioral note dated 07/18/22, documented that nursing staff observed resident with noncompliance behavior. Resident noted smoking in the facility despite being counseled on the facility's current smoking rules.			
Residents Affected - Many	There was no documented evidence unsafe smoking.	ee a CCP was developed to address the	e resident's smoking status and	
	On 07/29/22 at 11:29 AM, the Registered Nurse (RN#1) stated he/she is responsible for developing the CCP, and there should be a Hemodialysis CCP. RN #1 stated the facility had been going through some staffing issues lately, and they have to pass medications, follow up on appointments, and f/u on all other resident care.			
	On 07/29/22 at 11:07 AM, an interview conducted with the MDS Coordinator (MDSC). The MDSC stated they make the weekly schedule list of the residents due for care plans. The list is sent to all departments so each discipline will be able to review and revise the resident's care areas prior to the CCP meeting. The MDSC stated he/she ensures the care plans are done and revised timely. The RN Supervisor is responsible to update care plans related to new admissions and revision of care plans. The facility has 3 RN supervisors and 1 LPN on each unit during the day, making it difficult for the nurses to complete the required work, like care planning. The MDSC stated there is a shortage of nurses, and the agencies used are unreliable as their staff do not stay long.			
	Resident # 196 was admitted with diagnoses which include, Seizure Disorder, Coronary Artery Disease (CAD, Peripheral Vascular Disease (PVD), Schizophrenia.			
	The most recent annual Minimum Data Set 3.0 (MDS) assessment 06/30/22 documented that the resident cognitive status was moderately impaired (BIM 12). The MDS also documented that the resident required a limited assistance with mobility, transfer and toilet use, and an extensive assistance with personal hygiene.			
	I .	#196 was observed coming out of the sesident. Staff did not respond to the ala		
	A Social Worker note (SW) Note dated 07/26/22, documented Resident #196 was observed smoking Marijuana in their room. Resident #196 was educated about the smoking policy, informed the facility is non-smoking, and offered a nicotine patch and gum. The SW also documented that the ethics committee w meet, and a 30-day discharge notice will be provided when a placement is found.			
		6/21 documented that resident #196 renoking policy and would be assessed for		
	A review of a Social Work (SW) note dated 05/13/22 documented the fire alarm sounded in the resident #196's room. The room smelled of cigarette smoke, a room search was done, and a cigarette box and ashe were found. Resident #196 was reminded the facility is smoke-free, and Resident #196			
	The Fire Alarm Record documented the fire alarm was triggered in Resident #196's room due to cigarette smoking on 03/18/22, 05/1/22, and 06/1/22.

F 0689	Ensure that a nursing home area is free from accident hazards and provides adequate supervision to prevent accidents.		
Level of Harm - Immediate jeopardy to resident health or safety	**NOTE- TERMS IN BRACKETS H	IAVE BEEN EDITED TO PROTECT C	ONFIDENTIALITY** 44842
Residents Affected - Few	Based on observation, record review, and interviews conducted during the Extended Recertification and Complaint survey (NY00292383, NY00295660 and NY00293005) from 07/21/2022 through 08/03/2022, the facility did not ensure residents were adequately supervised to prevent smoking accidents. This was evidenced for 4 of 4 residents reviewed for Smoking. (Resident #s 196, 82, 33, and 48)		
	Specifically, the facility failed to provide adequate supervision and interventions to address residents with unsafe smoking and smoking in their rooms. Additionally, incidents of unsafe smoking were not investigated to determine adequate interventions to prevent recurrence. This was evident for 4 (Resident #s 196, 48, 82, and 33) of 4 residents reviewed for smoking.		
	Resident #196 was identified as a smoker when admitted on [DATE] and had a BIMS score of 12 out of 15, indicating moderately impaired cognition. A smoking safety assessment was not completed, and a smoking care plan was not developed. A Social Work (SW) note dated 5/13/2022 documented the fire alarm sounded in Resident #196's room. The room smelled of smoke, a room search was done, and a cigarette box and ashes were found. Resident #196 was reminded the facility is smoke-free, and Resident #196 denied smoking. The Fire Alarm Report documented the fire alarm was triggered in Resident #196's room due to unsafe smoking on 3/18/2022, 5/1/2022, and 6/1/2022. There was no documented evidence Resident #196 was provided a 30-day discharge notice, had increased monitoring, or care planned interventions to address the unsafe smoking. There was no documentation the incidents of unsafe smoking were investigated. A SW Note dated 07/26/2022 documented Resident #196 was observed smoking marijuana in their room. Resider #196 was educated about the smoking policy, informed the facility is non-smoking, and offered a nicotine patch and gum. The SW documented the ethics committee would meet, and a 30-day discharge notice would be provided when a placement was found.		
		d incidents of unsafe smoking that wer or new interventions implemented after	
	During observations of the stairwel butts throughout the stairwells.	ls conducted on 7/26/22, surveyors sm	elled smoke and found cigarette
	This resulted in Substandard Quality of Care that was Immediate Jeopardy (IJ) with the likelihood for serious injury, serious harm, serious impairment, or death to all residents smoking unsafely without adequate assessment and supervision. It was identified and declared.		
	The IJ began on 07/26/2022 and was called on 07/27/2022 at 05:12 PM The facility submitted a removal plan on 07/28/2022 at 01:42 AM. IJ was removed 08/01/2022 at 05:36 PM.		
	The findings include but are not lim	ited to:	
	The facility policy titled Smoking Fr	ee Facility dated 04/2020, documented	I the following:
	-The facility initiated a smoke free policy on April 2020 due to COVID-19 Public Health Emergency and promote smoking cessation while ensuring resident safety.  (continued on next page)

	Resident #82 smoking in their roon location of suspected smoke/fire, a materials when they searched residuals.	022 at 12:04 PM, Certified Nursing Assistant (CNA) #1 was interviewed and stated they observed smoking in their room all the time. When the fire alarm goes off, the security announces the suspected smoke/fire, and the staff conduct a search of the room. CNA #1 never found smoking hen they searched residents' rooms. The Registered Nurses (RN) Supervisors, SW, and or are aware there are constant smoking issues.		
	On 07/25/2022 at 11:54 AM, an interview was conducted with RN Supervisor #1 who stated the facility is smoke-free, and most of the smokers don't leave the building to smoke. Some of the smoking residents smoke in their rooms, and the alarm goes off very often. RN Supervisor #1 was not aware of a facility pla address the smoking residents. The staff reinforce with smoking residents that the facility is smoke-free.

F 0689  Level of Harm - Immediate jeopardy to resident health or safety  Residents Affected - Few	On 7/26/2022 at 11:29 AM, the Administrator was interviewed and stated residents continue to smoke despite the facility being smoke-free. Noncompliant residents are counseled, informed they may receive a 30-day discharge notice, and the family is made aware. Residents and visitors bring smoking materials into the facility. The Administrator did not identify smoking as a concern. The Administrator stated he/she did not think the unsafe smokers in the facility required assessments and care plan interventions because the facility became smoke-free, and the residents were informed of the policy upon admission.  On 07/27/2022 05:12 PM, Immediate Jeopardy (IJ) was identified and declared. The facility Administrator and Director of Nursing were notified.  On 07/28/2022 at 01:42 AM, the facility submitted a removal plan that was reviewed and accepted by the NYSDOH.			
	On 08/01/2022 at 05:36 PM, the survey team declared the IJ was removed based on the following corrective actions taken by the facility:			
	1- For Resident #196 and Resident #82, smoking assessments, Smoking Comprehensive Care Plans (CCP), and smoking contracts were completed. Both residents were observed with one-to-one monitoring, room searches conduct every 4 hours and no further smoking safety concerns identified. All corrections completed by 7/30/2022			
	2- For Resident #33, a review of nurse's progress note dated 07/24/2022 documented that the resident was transferred to the hospital due to other medical related condition.			
		resident # 48, smoking assessment was done on 7/29/2022. MD order dated 7/29/2022 at 7:29pm umented allowed to smoke per facility protocol. Smoking care plan effective 7/29/2022. Smoking contract ed 7/30/2022.		
		reviewed, and the smoking list was updated. All other residents identified as smokers afety and smoking care plans were developed and completed as of 08/01/2022.		
	5- A new smoking policy was deve residents for smoking, care plans a	loped on 7/2022. The revised policy en and supervisions.	sured consistency in assessing

Level of Harm - Minimal harm or potential for actual harm	accordance with accepted professional standards.  **NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY** 44842			
Residents Affected - Few	Based on record review and interviews conducted during the Extended Recertification and complaint survey (NY00290022) from 7/21/2022 through 8/03/2022, the facility did not ensure that medical records were maintained on each resident that were complete and accurately documented in accordance with professional standards and practice. Specifically, the Medication Administration Record did not contain documentation of medication administration for 9 of 11 prescribed medication days in January 2022 and for 10 of 18 days in February 2022 for multiple medications. This was evident for 1 of 5 residents reviewed for Medication Administration out of sample size of 47 residents. (Resident # 366).			
	The findings are:			
	The Medication Administration and Documentation-General Policy #PHNY69 revised May 2018 documented that the LPN (Licensed Practical Nurse) documents administration of medication on the MAR or eMAR immediately following administration, documents any medication not administered (i.e., refused, etc.,) and documents reason, documents specific reason and result for each dose of as needed medication on the MAR, documents all held or refused medication on MAR or eMAR, and uses prudent professional judgement by informing Physician in a timely manner when medications, held, refused or otherwise unavailable for administration.  Resident #366 was admitted to the facility with diagnoses that included Chronic pain due to trauma, Postherpetic trigeminal neuralgia, and Hypertension.

F 0842	The following medications were not documented on the Medication Administration Record dated February 2022:  Venlafaxine ER 150 mg capsule extended release 24 hour (give 1 capsule (150 mg) was not documented on 2/1/2022, 2/2/2022, from 2/4/2022 to 2/6/2022, and 2/12/2022,  Senna 8.6mg tablet (give 2 tablets by oral route once daily) was not documented on 2/1/22, from 2/4/2022 to 2/6/2022, 2/8/22, 2/13/2022, and 2/14/2022,		
Level of Harm - Minimal harm or potential for actual harm			
Residents Affected - Few			
	Pantoprazole 40mg delayed release tablet (give 1 tablet by oral route once daily) was not documented on 2/1/22, 2/6/22, and 2/7/22,		
	Mirtazapine 45 mg was note documented on 2/1/22, from 2/4/2022 to 2/6/2022, 2/8/22, 2/13/2022, and 2/14/2022,  Gabapentin was not documented at 9:00AM on 2/1/2022, 2/2/2022, from 2/4/2022 to 2/6/2022, and 2/12/2022; at 1pm on 2/1/2022, 2/2/2022, from 2/4/22 to 2/7/2022 and 2/12/2022, and at 5PM on 2/1/2022, from 2/4/2022 to 2/6/2022, 2/8/2022, 2/13/2022 and 2/14/2022,  Enalapril maleate 20 mg tablet was not documented on 2/1/2022, 2/2/2022, from 2/4/2022 to 2/6/2022, and 2/12/2022, and  Cholecalciferol 10 mcg tablet was not documented on 2/1/2022, 2/6/2022, and 2/7/2022.  On 07/28/2022 at 5:05PM, Registered Nurse (RN) #3 was interviewed. RN #3 stated that some residents want to take meds exactly at the time ordered and some medications interact with each other. RN #3 also stated that the ratio is 1 nurse per 40 residents and medications are always given 1 hour before or after ordered time. RN #3 further stated they always administer resident medications within the time frame.		
	On 08/02/2022 at 12:49PM, the Director of Nursing (DON) was interviewed and stated that they have the supervisor check at the start and end of the shift for completion and omission of documentation on the MAR. The DON also stated that some medications were not signed for and not accounted for on the resident's February 2022 MAR and the supervisor should have picked up on it and alerted the nurse.		
	Attempts to contact RN #2 and RN #3 regarding missing documentation on the MAR on 8/3/22 were unsuccessful.		
	On 08/03/22 at 11:28 AM, RN #1 was interviewed and stated that the days that they did not initial the MAR after administering medications was due to their heavy workload. RN #1 also stated that they usually run a report to check for omissions on the MAR and they would sometimes enter their initials on the next day when this happened.

F 0842  Level of Harm - Minimal harm or potential for actual harm  Residents Affected - Few	On 08/02/22 at 12:17 PM, LPN #2 was interviewed and stated that according to the legend, the dashes on resident's February MAR indicates the nurse did not document that medication was administered. LPN #2 also stated they forgot to put their initial in slots on the January MAR. At the end of every shift every nurse is responsible to review the dashboard & make sure they have documented in the resident's MAR. Also, the medication would show up in red if the medication was late. LPN #2 further stated they have a time limit in which to give medications and a medication that was not documented does not mean the resident did not receive the medication. LPN #2 stated that Resident #366 would remind the nurse when it is time for their medication and would not let the nurses forget to give them their medication and the resident had not refused any medications when they were on duty.
