F 0925 Level of Harm - Minimal harm or potential for actual harm Residents Affected - Some	control company treated for cockropest control company did not comp flies. He reported he had asked his contract over a year ago due to the corporate office would not agree to stated he was aware of the flies be were present on that hall. He said f inside the lights. He reported he ch had just changed the pads today he insect spray he obtained from the correct the fly problem. A review of immediate kill but had to be sprayed buring an interview on 6/17/22 at 8 on Wednesday and had some concept the Maintenance Director spoke to company on 6/15/22 to ask them to 37468 2. Resident #154 was admitted to the Review of a brief interview for menticognitively intact. During an interview on 6/13/22 at 4 problem. She stated flies would get buring observation on 6/13/22 at 4 straw for Resident #154. The fly enthe resident. During an interview on 6/15/22 at 3 ongoing fly problem. He requested approved it so the pest control combights in the facility and he changed not enough as there were still flies back patio entrance. He stated he is cooperate, but he was told to do it louring an interview on 6/17/22 at 8 last week and had some concerns spoke to him about his concerns with the concerns were spoke to him about his concerns with the concerns were spoke to him about his concerns with the concerns were spoke to him about his concerns with the concerns were spoke to him about his concerns were spoke to him	:58 AM the Administrator stated he workerns with flies in the facility Monday are him about his concerns with the flies are treat for flies. The facility on [DATE]. The facility on [DATE]. The facility on [DATE]. The facility on foother from the control of the straw briefly and then exited the straw briefly and then exited the fly program from the pest control of pany only treated for cockroaches and the sticky strips monthly. This interver in the facility. There were also fly fans and asked a previous administrator to go himself, so he continued to request through the flies in the facility. He stated on 6/10 the flies and they called the pest control of	ockroaches. He said the contracted of anything to treat the facility for fly prevention services to the sides of the facility. He said the the pest control company. He ee 200 hall because more residents of the sides with the sticky pad located of Maintenance Director added he of flies. He reported he also had an expect to the spray revealed it was designed for street at the facility since last week and Tuesday. He stated on 6/15/22 and they called the pest control wealed she was assessed as concern at the facility was the fly the straw and continued to circle do he was aware the facility had an company but corporate had not mice. He stated there were fly this helped a little bit, but it was at the back entrance and one at the jet the fly program added by bugh his vender. If been working at the facility since 15/22 the maintenance director introl company on 6/15/22 to ask
