Residents Affected - Some		ecord review, and policy review, the pro centered plans of care for 9 of 9 reside	•
	1. Observation and interview on 9/27/22 at 11:27 a.m. with resident 15 revealed:		
	*He was seated in his wheelchair in his room facing his bed with his back to the door of his room.		
	*After knocking and receiving a response from him, the surveyor entered his room and noted that he appeared sleepy.		
	*He commented he had to wait for staff to get into bed because it was hard to get on it when doing it myself, and he had fallen before when he tried.		
	*Sleeping in the wheelchair is not good, it hurts my tailbone.		
	*Sleeping on the bed was okay but	he slept on it better during the day that	n at night.
	*He was supposed to be getting a recliner and the social service designee was working on it.		
	Review of the 7/12/22 admission Minimum Data Set (MDS) assessment for resident 15 revealed:		
	*The brief interview for mental status (BIMS) coded him as having moderate cognitive impairment related to orientation to time and ability to recall.		
	*His functional status for bed mobil	ity and transfers required weight bearir	ng assistance of one person.
	*The pain interview assessment coded him as having occasional pain at a rating of five that limited his day-to-day activities.		
	*He had shortness of breath when	lying flat.	
	Review of resident 15's care plan r	evealed:	
	*No interventions to obtain a recliner in his room to address his preference and need for comfort.		
	*Four focus areas addressed his no	eed for comfort and assistance without	noting use of a recliner:
	-At risk for altered cardiovascular functioning with an intervention initiated on 7/7/22 to provide frequent rest periods.

F 0684	Provide appropriate treatment and	care according to orders, resident's pre	eferences and goals.	
Level of Harm - Actual harm	**NOTE- TERMS IN BRACKETS H	IAVE BEEN EDITED TO PROTECT CO	ONFIDENTIALITY** 41895	
Residents Affected - Few	Based on observation, interview, re	cord review, and procedure review, the	e provider failed to:	
	*Follow up and monitor for signs and symptoms for a urinary tract infection (UTI) resulting in hospitalization for one of one sampled resident (12).			
	*Provide sufficient incontinence and peri care to avoid development of a UTI for one of one sampled resident (55).			
	*Provide ongoing educational opportunities for one of one sampled resident (40) who self-cares for his ostomy.			
	*Provide fluids that were thickened to the correct consistency based on physician's orders for one of one sampled resident (277).			
	*Address all aspects of a resident's pain and implement interventions for one of one sampled resident (15).			
	Findings include:			
	1. Observation and interview on 9/27/22 at 10:54 a.m. of resident 12 in his room while certified nursing assistants (CNA) M and FF assist him to get ready for a shower.			
	*CNAs M and FF used the mechanical total body lift to move him from his wheelchair and into bed.			
	*They undressed him in the bed, emptied his catheter bag, set the catheter bag on his lap, and with the mechanical lift assisted him into the shower chair.			
	*CNA M pushed him to the east shower room in the shower chair with the catheter bag on his lap.			
	*When she got him in the shower, she then moved the catheter bag below the bladder and attached it to the side of the shower chair.			
	Interview on 9/27/22 at 11:32 a.m.	with CNA M regarding the above obser	vation revealed:	
	*She had been educated to empty the catheter bag prior to transferring a resident so then the bag could be placed in their lap so it would not get pulled out.			
	*She had agreed there could still be urine in the tubing of the bag that could go back into the bladder.			
	*Resident 12 had a history of UTIs.			
	Interview on 9/27/22 at 11:52 a.m. v revealed:	with licensed practical nurse BB regard	ling resident 12's catheter

	-Existing pressure ulcer.		
	*One 7/12/22 she had refused a skin assessment upon readmission due to complaints of pain.		
	*The first skin assessment was completed on 7/25/22 and stated she had a red groin.		
	*Her skin assessment on:		
	-8/2/22 stated she had an alteration in skin integrity but did not indicate what it was or where it was located.		
	-8/9/22 and 8/16/22 she had rednes	ss under breasts, left inner thigh, groin	folds, and coccyx.
	-8/23/22 the skin on her coccyx was pink and irritated. Calmoseptine cream was applied.		
	-8/30/22 her groin is red.		
	-9/6/22 stated she had an alteration in skin integrity but did not indicate what it was or where it was located.		
	-9/14/22 stated she had an alteration	on in skin integrity but did not indicate v	vhat it was or where it was located
	*No documentation of how often she was being repositioned.		
	Review of resident 20's bathing doo	cumentation between 8/1/22 through 9/	28/22 revealed she had:
	*Received a bath on 9/1/22 and 9/5	5/22.	
	*Refused a bath on 9/22/22.		
	-There had been no documentation of why or if another time had been set up to make up the missed bath.		
	Review of resident 20's revised 7/2	1/22 care plan revealed:

F 0686	*She had an actual impairment in s	kin integrity r/t CKD [related to chronic	kidney disease].
Level of Harm - Actual harm	*It had not indicated what the skin i	mpairment was or where it was located	ł.
Residents Affected - Few	*Had a goal for her wound to not develop infection.		
	*Apply wound treatment as ordered	d by the physician.	
	*Encourage good nutrition and hydration in order to promote healthier skin.		
	*Keep skin clean and dry. Use lotion to dry skin.		
	*Monitor/document location, size and treatment of skin injury. Report abnormalities, failure to heal, signs and symptoms of infection, maceration etc. to MD [medical doctor].		
	*Pressure reduction mattress and w/c [wheelchair] cushion. This was initiated on 2/25/22.		
	*Turn and reposition as needed.		
	*It had not indicated she was at risk for pressure ulcers or that she currently had a pressure ulcer.		
	Interview on 9/28/22 at 3:54 p.m. w	vith CNA AA regarding resident 20 reve	aled:
	*She usually worked a twelve hour day shift.		
	*When she was working, they would get resident 20 up into her wheelchair around 10:00 a.m. or when she called for assistance.		
	-This was the first time she had been changed or repositioned on the day shift.		
	*Resident 20 would then stay in her wheelchair until she was ready to get into bed for the evening.		
	*They did not check to ensure she	was dry during the time she was in her	wheelchair or reposition her.
	*Resident 20 was always incontinent of bowel and bladder and did not use the toilet.		
	*Resident 20 did have a sore on he	er bottom.	
	Interview on 9/28/22 with LPN BB regarding resident 20 revealed:		
	*Resident 20 did have a pressure ulcer to her coccyx area and the nurses were putting cream on it.		
	*She had thought all wounds in the building were measured weekly.

F 0692	*Schedule posted on Dietary Wall, i	in C.N.A. and Nurse Communication b	ook, and at Center Nurses station.	
Level of Harm - Immediate	*Resident #16 will be interviewed for	or preferences of beverages she prefer	to consume.	
jeopardy to resident health or safety	*Resident #16 Oral care will be prov	vided 3x day by C.N.A. or Nurse.		
Residents Affected - Few	*Resident #16 Nurses will complete abdominal assessment for bowel sounds, and ensure abdomen is soft and non-tender 2x week to assist with signs and symptoms of constipation. Nurses will follow bowel protocol to ensure PRN medications are administered as ordered to assist with prevention of constipation and ensuring appropriate hydration status.			
	*Resident #16 will be assessed by Dietitian on 10/04/2022.			
	*Resident #16 Care Plan will be updated to reflect the above.			
	2. Process/Steps to identify others having the potential to be impacted by the same deficient practice:			
	*All other residents will be assessed for signs and symptoms of dehydration. If not already on Intake monitoring will be implemented for hydration improvement.			
	*Immediate Education will be provided to C.N.A.'s, Dietary Aides, Cooks, and Nurses regarding importance of hydration, and fluid intake of all residents, signs, and symptoms of dehydration, and on amount of mL's in each beverage container. They will be provided a list of high-risk residents to ensure awareness of fluid consumption. C.N.A.s and nurses will be educated regarding importance of bowel documentation and follow up.			
	*Nurses will have a task on the TAR for monitoring fluid consumption of high-risk residents prior to end of shift, to ensure minimum goal of fluids has been consumed.			
	*Water pass was implemented at 10:30AM on 09/30/22.			
	3. Measures put in to place/systema	atic changes to ensure the deficient pro	actice does not reoccur	
	*Nurse Manager will be assigned to observe, monitor, and ensure hydration schedules are being followed, and oral care is completed.			
	*Will review fluid intake and BM doo	cumentation daily during morning clinic	al meeting.	
	4. Plan to monitor performance to ensure solutions are sustained			
	*Audits 12 resident's intake, oral care, and bowels daily x 4 weeks, 3x week x 4 weeks, weekly x 4 weeks, monthly x 4 months.			
	*Water pass audit daily x4 weeks, 3x week x4 weeks, weekly x4 weeks, and monthly x4 months.

For information on the nursing home's	plan to correct this deficiency, please con	l tact the nursing home or the state survey	agency.	
(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		on)	
F 0725	*She had worked as a CNA here fo	r a year.		
Level of Harm - Actual harm	*The CNAs rotate wing assignment	s, and it took her two weeks to get to k	now every resident.	
Residents Affected - Some		at day, but they usually don't know whe		
	*The day shift CNAs will do walking rounds with the night CNAs if the night CNAs get here on time.			
	*The CNAs do not get report from the nurses.			
	*Regarding the bath schedule:			
	-There is a schedule in the tub room.			
	-The CNAs fill out a bath sheet to report the bath being done and any concerns observed during the skin check.			
	-If scheduled bath is not done, a second CNA may see if the resident is willing to get a bath that day.			
	-If the bath is not done, it may be done on another day if there is time and the bath CNA is aware of who was not done.			
	-Sometimes, the nurse will write a note in the bath book.			
	-We document the bath task in POC [point of care].			
	*Radios don't help with communication between staff. There was either not enough or they are not charged.			
	*The CNAs are not able to hear call lights from one end to the next.			
	*Most Hoyer [total] lifts are on blue [wing], and the CNAs have to pool together to get two person transfers done.			
	*Mealtimes can be a challenge for assisting all the residents.			
	-Today during lunch, there wasn't enough. Several people, including leadership, left while the surveyors were gone for lunch.			
	-Supper is hardest for having enough staff to assist with the mealtime because we are changing shifts at 6:00 [p.m.]			
	At the end of the interview with CNA N on 9/28/22 at 4:20 p.m., LPN L, who was charting while seated at the nurses desk, spoke up and reported there was never enough staff. She said, Management has asked the CNAs several times what would help, and nothing has changed.

F 0809 Level of Harm - Minimal harm or potential for actual harm	Ensure meals and snacks are served at times in accordance with resident's needs, preferen requests. Suitable and nourishing alternative meals and snacks must be provided for reside eat at non-traditional times or outside of scheduled meal times.			
	06365			
Residents Affected - Some	Based on observation, interview, and policy review, the provider failed to ensure snacks and fresh water or other beverages were offered and available to 11 of 11 residents (9, 16, 20, 25, 34, 36, 46, 50, 52, 63, and 73). Findings include:			
	1. Observations on 9/27/22 at 9:59 a.m.,9/28/22 at 4:26 p.m., and 9/30/22 at 10:10 a.m. revealed resident 16:			
	*Had a water mug with a straw on the overbed table positioned in front of her.			
	*Her lips were pale in color, dry and chapped, and had flakes of skin on 9/27/22.			
	*Her teeth appeared dull with yellow build-up and dry.			
	*Moved her arms about in uncontrollable jerking movements.			
	*Spoke with a muffled sound and moved her lips only slightly.			
	Review of resident 16's electronic health record revealed she had signs and symptoms of poor fluid intake. (Refer to F692, finding 1.)			
	2. Interview on 9/28/22 at 3:51 p.m. with CNAs S and V revealed:			
	*CNA V had been working here for a few weeks, but CNA S started just on Monday, 9/26/22; both were already CNAs when they started.			
	*The CNAs have to pick up the water cups from each room and return with fresh water during the shift.			
	*CNA V reported there was no system for doing that when she first started so she started putting tape on the mugs so she could tell when fresh water was last delivered to each room.			
	*Snack carts had to be done by CNAs if it was going to be done.			
	*They had not had time yet to pass fresh water or snacks.			
	Interview on 9/30/22 at 10:12 a.m. with CNA S revealed She and the other CNA assigned to the wing had not passed fresh water yet.			
	3. Interview on 9/29/22 at 10:00 a.m. with 7 residents (9, 34, 36, 50, 52, 63, and 73) interviewed during the resident group meeting agreed:			
	*They got fresh ice water when they ask for it, but it is not routinely distributed.

F 0809	*They had not seen a snack cart ar	nd had never been offered snacks at be	edtime.		
Level of Harm - Minimal harm or potential for actual harm	41895				
Residents Affected - Some	4. Interview on 9/27/22 at 4:02 p.m.	. with resident 20 revealed:			
Nesidents Allected - Joine	*She only got fresh water when she	e asked for it.			
	*CNAs used to pass snacks but do not anymore.				
	*One evening she had requested toast and peanut butter and was told that the kitchen was closed.				
	-The next morning, she was served toast and peanut butter for breakfast.				
	5. Interview on 9/28/22 at 10:00 a.m. with resident 25 revealed:				
	*There are no snacks passed during the day.				
	*She does not request a snack every day.				
	*Has been told by staff that there were no snacks available.				
	6. Interview on 9/27/22 at 10:30 a.m. with resident 46 revealed:				
	*Fresh water was not offered. He had to ask staff or go get it himself.				
	*Sometimes he is offered a snack and sometimes he must ask.				
	7. Interview on 9/28/22 at 3:54 p.m. with CNA AA regarding snack passes to the resident residing on the East wing revealed:				
	*Snacks are supposed to be offered at 2:30 p.m. and bedtime.				
	*Snacks were brought to the centra	I nurse's station but not to the east win	g.		
	*If a resident wants a snack a staff person had to go to the central nurse's station to get it.				
	8. Interview on 9/28/22 at 4:09 p.m. with licensed practical nurse (LPN) BB regarding snack and water passes for the residents on the East wing revealed:				
	*Fresh water should be passed every day at 2:00 p.m. and 7:30 p.m. or as needed.				
	*Agreed the water did not get passed on the day of the interview.				
	*Snacks get passed in the afternoon. She had passed snacks out to the ones who wanted one.				
	*Snacks are delivered to the central nurse's station and staff need to go there to get them.
